CLAMCRING FOR JOBS.

Cubans Make Life Miserable For General Wood.

TO SERVE THEIR COUNTRY

Over Two Thousand of Them Are Anxious, and Are Willing, to Take Any Position From Mayor Down to Policeman.

Manzanillo, Oct. 31.—The visit of General Leonard Wood, governor of the military department of Santiago, to the Cuban assembly has been instrumental in bringing all the elements among the Cubans to the front. No fewer than 2,000 insurgents, of whom 500 are officers, want offices, and their clamor amounts almost to a demand.

There are two leading factions, one headed by General Jesus Rabi and the other by General Rios. At present most of the offices are held by representatives of the Rabi faction, including the mayoralty and the custom house inspectorships. General Wood, in order to pacify the Rios faction, has given them six positions on the rural police force and turned over to one of their people the light house at Cape Cruz, together with several other minor appointments.

But neither party is satisfied, each thinking that it ought to have all the offices. General Rios does not dare express his opinion publicly of General Rabi, but he feels that this is his office, as he has had the nominal charge of it for three years and that it ought to belong to him so far as appointments of Cubans to office are concerned and all the more so because he represents General Calixto Garcia.

The majority of the insurgents here have no money and go about living from hand to mouth and wondering what will happen next. Armed men are not allowed rations, as the Cubans will not disband and will not work, nothing remains for them but to strut about the city with their machetes and revolvers.

General Wood and Colonel Pettit regard the outlook as rather discouraging. Still they hope that some means may soon be found to break up the Cuban army. The members of the rank and file are anxious to go to work, but the leaders refuse to allow them to do so, and the men do not dare desert as they would be shot if captured.

It was necessary to send a detachment of the Fourth Immune regiment under a sergeant to the Rigney plantation in order to compel the armed Cubans to allow men to work there. The undertaking, however, proved successful and 200 men are now regularly employed.

Major Comegys Testifies.

Chattanooga, Oct. 31.—Major Edward T. Comegys was the first witness before the war investigating commission. He was medical purveyor here during the life of Camp Thomas. He stated there had never been any delay in filling his requisitions on the surgeon general, and that he had always been able to meet all requisitions upon himself. Major Comegys admitted that he had refused to fill some requisitions from the hospital of the Second division of the Third corps, because satisfied the articles demanded were not needed. He accounted for the sickness in Camp Thomas by saying the men did not know how to take care of themselves. "They seemed to sink," he said, "that when they had put on the uniforms there was nothing else to do that they could simply enjoy themselves and their officers would do the rest. He thought the colonel and regimental surgeons were to blame."

Want Territorial Rights.

San Juan, Porto Rico, Oct. 31.—The principal theater of the city was taxed on the occasion of a public meeting of delegates to consider recommendations regarding the necessities of the island for the use of the special commissioners, who will be selected later to represent Porto Rico at Washington, when the time comes for settling the administrative system. Carefully prepared reports were submitted by the political, social and economical committees. The meeting received with enthusiasm the resolutions demanding territorial rights, the cessation of the present military rule and the installation of regular civil rule.

Lawton at Washington.

Washington, Oct. 31.—Major General Henry W. Lawton, who recently arrived in this country from Santiago, was at the war department, accompanied by Captains R. G. Mendoza and Edward L. King of his staff and Mr. A. E. Maestre, a native Cuban. General Lawton came to Washington for consultation with the authorities here. He spent some time in General Corbin's office and afterwards went to the White House to see the president. General Lawton expressed satisfaction at the manner in which affairs are moving in Santiago province.

Ordered to Washington.

Havana, Oct. 31.—Colonel Hecker and Colonel Lee of the United States special transportation commission received cablegrams from Washington, directing their return to Washington by the first steamer available.

Considering Cuban Occupancy.

Washington, Oct. 31.—The president, Secretary Alger and Assistant General Corbin had an extended conference, the principal topic under consideration being the occupation of Cuba. There is no disposition to change the date, Jan. 1, fixed for the assumption of control by the United States. The questions discussed related mainly to transportation, ships, equipments, landings and camps. The reports of the Cuban military commission and of the army board sent to investigate and locate sites were considered. General Lawton, who has been for some time past the military governor of Santiago province, was present during a portion of the conference and gave the president some information concerning conditions in Cuba.

Ohio Soldier Dies.

New York, Oct. 31.—The United States army hospital ship Missouri arrived from Porto Rican ports with 271 sick or wounded patients, most of whom are suffering with malarial fever, typhoid fever, and dysentery. Two died, L. Burton Bradish, corporal, company A, Third Illinois, and Henry M. Morrison, private, company H, Fourth Ohio. The former was buried at Mayaguez, the latter at sea. The following members of the Fourth Ohio were among the sick: Walter W. Ingle, company K; Corporal John R. Dutton, company G; Charles Pierce, company A; John W. Shela, company H; John Snyder, company M; James A. Smalle, company L.

Can Be Discharged.

Washington, Oct. 31.—Major General Miles issued a circular to the army which is of general interest to volunteer regiments. It affects particularly the enlisted men in the volunteer regiments who were transferred during the Spanish war to the hospital corps of the regular army. The circular provides that privates of the hospital corps who have been transferred from volunteer regiments which are to be mustered out of the service will be discharged, if they so request, upon the day on which their former regiment is mustered out, provided that their service has been honest and faithful.

Movement of Camp Meade Troops.

Camp Meade, Middletown, Pa., Oct. 31.—The first of the troops to leave here for the new camp of the Second corps at Augusta, Ga., were the two engineer companies. They were followed later by the signal corps and a wagon train. The Pennsylvania regiments will not start south until after the election. Commissioners will be appointed by Governor Hastings to take their votes. Major General Graham is anxious to get his corps away from here as early as possible and expects to have all the troops in the south by the middle of November.

Leaves of Absence to Vote.

Washington, Oct. 31.—Secretary Alger has issued the following memorandum for chiefs of bureaus and offices in his department bearing on the question of requests made by employees to go home and vote: "When request is made by employees of the department for leave of absence to enable them to go home to vote, permission, irrespective of party, will be granted, if it can be done without detriment to the public service; the time so absent to be charged against the annual leave authorized by law, or if leave is exhausted, the time absent to be without pay."

First Maine Artillery.

Augusta, Me., Oct. 31.—The First Maine artillery, consisting of four batteries, 460 out of the 518 members and 12 officers, commanded by Major E. E. Newcomb, left for Savannah, Ga. About 30 patients were left in the hospital here and the rest of the absentees are away on sick furloughs. At Boston the battalion will take the transport Mississippi for New York and later another transport for Savannah, Ga., where they will be attached to the Seventh corps.

Had Dynamite Explosives.

Ponce, Porto Rico, Oct. 31.—A sensation was caused here on the arrival of the Red D line steamer Philadelphia from the Spanish main, by the discovery in the handbags of two passengers of a number of explosive cartridges containing dynamite. The discovery was made by the customs officials and the passengers were arrested on the suspicion that they are anarchists. The police, who fear that others belonging to the gang have escaped, are making a strict search.

Philadelphia, Oct. 31.—More than 100,000 bushels of wheat and corn cleared the custom house on steamers bound to European ports. The shipments consisted principally of corn.

TO THE VERY BOTTOM

Will Be Sifted the Famous Dreyfus Case

BY THE COURT OF CASSATION

Has Absolute Control of the Matter, and Officers High and Low Will Be Thoroughly Examined in Secret Session.

Paris, Oct. 31.—By its decision, the court of cassation obtains the most absolute control over the Dreyfus case. It can demand and examine any documents whatever, including the dossier of any case bearing upon the Dreyfus matter and can examine under oath any witness, however high his position.

In short, if the court makes a sincere use of its power, the truth will have a much better chance of being discovered than would have been the case had it merely ordered revision before another court martial, whose members might have been actuated by a desire to shield the general staff.

Having concluded its inquiry it can present a new dossier to either a civil or a military court for final decision.

Its proceedings will not be public and there can, therefore, be no objection to a communication to it of the alleged secret dossier, if this is still in existence, while the numerous generals who have expressed their belief in the guilt of Dreyfus will now be called upon to explain the grounds of their convictions.

Although the liberation of Dreyfus has not been ordered, the court can order him brought to France at any moment, and will probably do so at an early stage of the inquiry.

The court refrained from ordering his release on Saturday because it would have been a presumption of his innocence.

Paul Deroude of the Patriotic league turned the patriotic manifestation at Le Bourget in memory of the soldiers who fell there in the Franco-Prussian war of 1870 into a revolutionary demonstration against the decision of the court of cassation. He delivered a violent anti-Dreyfus speech. Marcel Habert, member of the chamber of deputies, followed with a still more inflammatory harangue. There were, however, no disorders.

As President Faure left the Grand Opera house he was greeted with prolonged shouts of "Vive l'Armee."

Count Esterhazy, It is Reported, Has Written to Several Generals Demanding Money Under Threats of Exposure.

Denounced Star Route Methods.

Washington, Oct. 31.—The immense work of transporting the mails throughout the United States is dealt with in the annual report of Second Assistant Postmaster General William S. Shellenberger, which has been made public. The main feature of the report is a vigorous arraignment of existing star route methods. The report shows the number of mail routes at the close of the year was 33,795, total mileage \$80,461, and averaging on each route nine trips per week. There were 434,332,691 miles traveled on these routes, costing almost \$107 per mile of length each, or almost \$12 per mile traveled.

Cyclone in London.

London, Oct. 31.—During a severe storm, a small area about half a mile square, in London, was visited by a veritable cyclone. Cabs were overturned, windows, doors, lamp posts, trees and chimneys were blown down and a number of houses unroofed. The contents of numerous hawkers' stalls were carried hundreds of yards in the air by the wind and many people were injured by the flying debris, which did also immense damage to property.

Maltreatment at Sea.

Seattle, Wash., Oct. 31.—A delegation of eight sailors from the American bark St. Catherine from New York tell harrowing stories of maltreatment and abuse. They wanted warrants for the arrest of Captain Edward Matthews and First Mate Dressel. The sailors were Germans and Scandinavians and cannot speak English. Captain Matthews strongly denies the charges.

Suspected of Train Wrecking.

Chattanooga, Oct. 31.—Officials of the Western and Atlantic railroad and of Cobb county, Ga., have arrested Luke and Thompson Vann and Alex Cantrell, near Acworth, Ga., on suspicion of having attempted to wreck a passenger train on the Western and Atlantic railroad. One of the Vanns confessed and all three men have been held to court.

Oregonia, O., Oct. 31.—An examination of the stomach of Alice Gilliam, who died suddenly, disclosed that she had taken strychnine. A note was found reading: "John, I die because I love you." She was to have been married to John Smith. He called upon her Thursday night and accused her of paying attention to other men.

MUSSELMANS EXECUTED.

Slayers of British Soldiers in Crete Pay Penalty of the Law.

Candia, Island of Crete, Oct. 31.—The massacre of the British soldiers here on Sept. 6 was avenged by the execution of five more Mussulmans, convicted of the crime.

In addition, four Bashl-Bazouks have been sentenced to 20 years' imprisonment at hard labor.

Since the departure of the Turkish troops a number of additional guilty Mussulmans have been discovered daily. It also appears that the Turkish officers appropriated the valuables looted by their soldiers.

Schools Are Needed.

Washington, Oct. 31.—The annual report of the Dawes Indian commission, bringing the work of that body in reorganizing Indian territory up to date, was made public. It urges as the main call for government aid the need of some provision by the national government for educational purposes in the territory. While the funds and resources of the several tribes, properly managed, can probably supply sufficient support for the schools of the citizen Indians, yet the white residents can not share in them and must look elsewhere for the means of educating their children.

Editor and Publisher Arrested.

Lexington, Ky., Oct. 31.—Charles Moore, editor, and James E. Hughes, publisher, of the Blue Grass Blade, an infidel and free love weekly, were arrested by the United States marshal for sending obscene matter through the mails. The article that caused this arrest was published in October, 1897, and was a most undisguised plea for free love. Moore and Hughes were indicted in the United States court at Cincinnati, where the Blade was temporarily published, and will be taken before Judge Barr at Louisville.

No Truth in Report.

Washington, Oct. 31.—Secretary Bliss has been investigating the alleged scandals in connection with the sale of the timber lands of the Chippewa Indians, and will treat the subject in his forthcoming report to congress. The charges upon investigation are shown to be utterly without foundation. Under the treaty of 1889 the United States has advanced to the Indians over \$2,000,000, and as yet have been reimbursed only to the extent of \$600,000.

Injunction Cases Dismissed.

Springfield, Ill., Oct. 31.—The injunction cases against Edward Cahill and 25 other miners of Virden brought by the Chicago-Virden Coal company, enjoining the miners from interfering with the operation of the mine, were dismissed in the circuit court by the complainant. It is believed this is preliminary to an effort to again arbitrate the differences between the company and employees.

Bank President Acquitted.

Fargo, N. D., Oct. 31.—H. F. Miller, president of the defunct Citizens' National bank, on trial in the United States court on charges of embezzlement and misappropriation of funds, was acquitted. The jury was out 19 hours. Miller has been prominent in politics. Cashier C. C. Schuyler was also indicted, but it is now believed the case will be dropped.

Prisoner Identified.

Columbus, O., Oct. 31.—Francis Emmerston, who made a sensational escape from the penitentiary a few weeks ago, and for whose sake Mrs. Louise Rankin, a well known newspaper woman of this city, committed suicide when she learned that he had been recaptured, was identified as "Kid" McKeon, one of the shrewdest crooks in the country.

King George May Abrogate.

London, Oct. 31.—According to advices received from the court of Copenhagen, where King George of Greece is staying after attending the funeral of the Queen of Denmark, it is believed there that he will abdicate next spring in favor of the Crown Prince Constantine, Duke of Sparta, and will return to Denmark and settle there permanently.

In the Postal Union.

Washington, Oct. 31.—Sir Julian Pauncefote, the British ambassador, and Postmaster General Smith affixed their signatures to the parcel post treaty between the United States and the British colony of Trinidad. The treaty is drawn up in the regular form of the Universal Postal union.

Early Appearance of Influenza.

London, Oct. 31.—Influenza has made its reappearance here earlier this season. The number of cases here this week is the highest since last winter. Fifteen deaths in London are officially attributed to influenza and there are apprehensions that it will assume epidemic form.

Mentone, France, Oct. 31.—This district was visited by a terrible hailstorm. The stones are of immense size. The olive and lemon crops have been completely destroyed.

AN ENTRY TRIUMPHAL

Made Into the Ancient Capital of the Holy Land.

GRAND FEALTY TO ROYALTY

Bands, Banners, Arches, and Shouting Thousands Welcome Their Imperial German Highnesses to Jerusalem.

Jerusalem, Oct. 31.—The approach of their German imperial majesties to the city was made through triumphal arches and amid banners, garlands and ever growing crowds, displaying in every way enthusiasm and delight.

The formal entry through the Jaffa gate was heralded by the roar of guns at the citadel, where the Turkish band played the German anthem.

From the tower of David, Emperor William and Empress Augusta Victoria proceeded on foot, amid wild cheering, to the church of the Holy Sepulchre, where they were received by the Catholic, Greek and Armenian clergy, whose patriarchs presented addresses, eulogizing the devotion of Emperor William, who has since conferred decorations on the patriarchs. Their majesties then proceeded to the German Evangelical church, where the pastor presented an address.

In the evening a reception was held at the German consulate and later there was a general illumination of the city with a display of fireworks. The imperial pair attended services at the Evangelical church in Bethlehem, afterward paying a visit to the church of the nativity.

After the excursion to Jericho, Djavad Pasha, former grand vizier, recently Turkish governor of Crete and now attached to the person of Emperor William as a special representative of the sultan, will leave the imperial suite. It is rumored that this is due to some unpleasantness.

Shot by the Sheriff.

Bellefontaine, O., Oct. 31.—Deputy Sheriff Ed Shaw was taking William Rapp and George Franklin, two young housebreakers claiming Toledo as their home, who had just pleaded guilty and received indefinite sentences, to the reformatory at Mansfield, when the two made a break for liberty at the jail door. Deputy Shaw started after Rapp, calling for him to stop, but the prisoner ran the faster. Shaw fired, striking Rapp in the left side under the ribs. Physicians pronounce his injuries serious owing to internal bleeding. Franklin fled through alleys and is still at large.

French Cabinet Crisis.

Paris, Oct. 31.—Nowhere is there any sign of agitation. The city is quiet. The anti-semitic papers vainly endeavor, by abusing the judges of the court of cassation, to lash the public into a hostile demonstration. The Dreyfus decision seems to have delayed a solution of the cabinet crisis. M. De Freynet is again hesitating to accept the portfolio of minister of war on the ground that in view of the role the Protestants have played in the Dreyfus case, it would be inadvisable for two Protestants, himself and M. Ribot, to hold the portfolios of war and justice.

Fell Dead.

Paoli, Ind., Oct. 31.—Jacob Padgett, 35, dropped dead in the woods of heart disease. His twin brother, Isaac Padgett, committed suicide about a year ago while crazy, which so preyed upon the mind of Jacob that he, too, became deranged, and made vicious attacks on a number of people. Steps were taken to have him arrested, and he was being watched by parties in the woods, to which he had fled, when he was seen to throw up his hands and fall headlong to the ground, and when approached was found to be dead.

Perforated With Buckshot.

Lexington, Ky., Oct. 31.—Privates Lant, Peck and Ed Swadley, company B, Second Missouri, were shot by a farmer, and are now in the division hospital. The soldiers claim that they were going to a farmhouse to call upon a couple of young ladies, and were shot before they reached the house. They claim not to know the names of the ladies or the man who shot them.

Drink Did It.

Louisville, Ky., Oct. 31.—Crazed from excessive indulgence in liquor, John E. Craven committed suicide by jumping from a bridge. His body was recovered by a fisherman who witnessed the leap. About nine months ago he and his wife separated, the latter taking their 5-year-old daughter. Before then the husband was never in an intoxicated condition.

Anderson, Ind., Oct. 31.—Indiana Baptists have assumed the undertaking of creating a Chautauqua in this state. A committee is favorable to a location near Plymouth.

FOR CONGRESS
MORDEAI WILLIAMS,
of Boyd County.

For Kentucky—Fair; warmer in western portions; variable winds.

REPUBLICAN papers are referring to the Owensville Outlook as "one of the leading Democratic papers in the district." The Outlook deserted the Democratic party two years ago.

CATLETTSBURG Democrat: "Pugh said to one of his friends while in Boyd County last week, 'I know I have not fulfilled my promises, but they will vote for me when the time comes, just the same.'"

Here's another Republican paper commending the working of the Goebel election law. The Cynthiana Log Cabin says:

From a local standpoint it is gratifying to be able to say that the Harrison County Election Commissioners acted fairly in the selection of election officers.

ROUGHRIIDER ROOSEVELT is not having an easy time trying to get the Governorship of New York. The Democratic managers claim the State for Van Wyck by from 75,000 to 100,000. The New York Herald's forecast shows Van Wyck in the lead.

The Grayson Tribune is also scared up over Mr. Williams' "still hunt," and appeals to Republicans that "Pugh represents the Republican party." Some Republicans down this way claim he represents the "Thomas-Pugh Office-holding and Salary-drawing Syndicate."

The Brooksville Review says that in Braeken County alone there are over 100 Republicans "who will not touch Pugh with a ten-foot pole." It looks very much like it is to be "Pugh and defeat," as the Public Ledger and Dover Messenger predicted before the district convention.

PRESIDENT MCKINLEY refused to see Inspector General Breckinridge when the latter called on him last week. General Breckinridge, it is said, has incurred the ill will of the Administration for telling some plain truths about the mismanagement of affairs by the War Department, but why should the President of a great Nation manifest such spite and ill will? Let the truth be known no matter who suffers.

HON. JOHN M. MOORE, of Wickliffe, Ky., has withdrawn from the race for the Democratic nomination for State Superintendent of Public Instruction in the interest of Hon. H. V. McChesney. Both live in the First Congressional district. Mr. McChesney is editor of the Smithland Banner and is County Superintendent at that place. He has the reputation of being a man of fine executive ability, well fitted in every way for the position to which he aspires.

Here's something that is not only very timely but it is to the point:

If every Republican candidate for Congress from Maine to California and from the Northern lakes to the Gulf were defeated at the November election it would not in any way detract from the glory that followed the brilliant achievements of our soldiers and sailors, who did not enlist and fight as political partisans, but as American patriots who knew no party while the enemy was in the field. The triumph of American ships and American arms was the triumph of the American people.

The scandals growing out of the war by reason of the incompetency of certain officials, many of whom received their positions through political favoritism, are another thing, and the American people know where to place the responsibility for them.

DURING a recent conversation with one of the most prominent and best informed Republicans of Mason County the Sun was informed that the Democrats of that county had never been so inactive, that they were smarting over the defeat of their candidate for the nomination, James Kehoe, and that they would make no effort to carry the county for Williams, while many would openly support Pugh, and the Republicans there counted on giving Pugh a handsome majority.—Vanceburg Sun.

The Democrats of Mason County will show their activity on election day. The Sun informant is not well posted, and draws heavily on his imagination. While Mr. Kehoe's friends regret he was not nominated, yet they are not the Democrats to sulk. They know Mr. Kehoe stands a splendid chance to yet represent the district in Congress.

VOTE THE BONDS.

The turnpike situation in Nicholas County is very similar, as far as the bond question is concerned, to the present status of the matter in this county. The voters of Nicholas will decide on November 8th, whether bonds shall be issued to pay for certain roads, and the voters of Mason County are asked to decide the same question. The Courier of Carlisle urges the people to vote the bonds, and its arguments are to the point. It says: "Those pikes that were not so valuable were turned over to the county by the companies. Those that were the most valuable were offered to the county at a valuation then deemed exorbitant; but subsequently more favorable terms were proposed; and now it is practically within the power of the County Court to buy these pikes on very reasonable terms, at a greatly reduced price. Of course it would be the height of folly for the County Court to buy the roads without the means to pay for them, and they ask the people of the county to empower them to issue bonds to pay for the roads and keep them in first-class condition for the use of the people of the county."

"Surely this is a most reasonable request. The County Court is the only authorized agent of the people to settle this matter, and their hands should not be tied when they try to settle it in the only lawful and honorable way that is left to them. It has been suggested that those opposed to the bonds are also opposed to free turnpikes. They are deluding themselves and their friends if they are not opposed to free turnpikes."

"There is nothing more certain than that if the bond question fails in the county, the tollgates will be re-erected and that heavy damages will come off the county for the time the pikes have been out of the control of their owners. What benefit will it be to our people if this money is paid for damages, as it surely must be, if it takes all the power of the State Government to accomplish it? We will simply be paying for nothing and it leaves us in the same condition as before the damages are paid."

"It seems that common sense and common honesty would dictate to every man, having the best interests of the county at heart, to vote for bonds and thereby enable the County Court to remove this vexed question from the people of the county. No man in the county will ever feel poorer by having to pay the small addition to his tax that the bonds will require."

INFIDEL MOORE INDICTED.

The Editor and Publisher of the Notorious Blue Grass Blade Arrested for Advocating Free Love.

LEXINGTON, KY., Oct. 29.—Editor Chas. C. Moore, of the Blue Grass Blade, and James E. Hughes, its publisher, were arrested here to-day by Deputy United States Marshal Con McCarty, of Frankfort, on warrants issued on indictments found in the United States District Court at Cincinnati, charging them with publishing and circulating the Blue Grass Blade of October 3rd, 1897, a year ago, containing an article headed "A Kentucky Judge," the said article containing unavailing matter in regard to free love.

The Kentucky Judge referred to in the Blade is Judge F. R. Feland, of Lawrenceburg, who wrote Editor Moore a letter calling him down on his free love theory. Moore, in responding to the letter, came out in what is charged to be the most undisguised advocacy of free love in its most flagrant form.

The prisoners will be arraigned before Judge Barr, in Louisville, on Monday.

DANVILLE has been selected as the place and the second Tuesday in October as the time of the next meeting of the Southern Presbyterian Synod.

Porter's sermon on "Lot's Escape From Sodom" and "The Sinner's Escape From Maysville." The sermon was a plain, earnest, powerful plea for Christianity and Godly living. The solo by Professor Flora was inspiring and was greatly enjoyed. Special services will be conducted at the church every evening this week by the pastor to which we are authorized to invite everybody. If you fail to hear these helpful sermons and the soul-inspiring songs you surely deprive yourselves of a great privilege.

A Harmonious Church.

[Louisville Courier-Journal.] There are rumors of requested resignations in several prominent churches, but the First Christian Church is not one of them. The church treasurer said to a mission worker who recently visited that church and preached, in the absence of Dr. E. L. Powell, the beloved pastor: "There is not a single person opposed to Brother Powell in this large congregation; if there were such I would know it, as I collect the money."

Dr. Powell has been pastor for eleven years in this city and is liked by the public generally as heartily as by his church members.

ARMY OF PENSIONERS.

The United States Pays Them More Than the Standing Armies of European Countries Cost.

[London News.] The American pension roll continues to swell. The vitality of the veterans of the civil war is amazing, and their relative increase and multiply. Last year's pension bill was £29,000,000, and this year's will be more. The Commissioner of Pensioners reports that there are still 200,000 survivors of the civil war who have not yet applied for pensions. And claims are pouring in from soldiers who took part in the war with Spain. It is a serious drain on the country's finances. Compare the annual cost of American pensioners, for instance, with European armies:

Italian army.....	£9,500,000
Austrian army.....	15,000,000
British army.....	18,000,000
French army.....	26,000,000
German army.....	27,000,000
American army of pensioners.....	29,000,000

This colossal sum will grow, too. There are still five surviving widows of soldiers who fought in the revolution, which shows that the pensioners are a healthy race, while of more modern claims there are still several hundred thousand which await consideration. The explanation, of course, is simple; it is that every succeeding government has treated the pension fund as a convenient treasure chest for the payment of supporters.

Skyrocket Kills.

[New York Telegraph.] While attending an outdoor political meeting Tuesday night Peter Bowen, an old man of sixty-two years, was instantly killed in a peculiar manner.

A skyrocket, instead of going up in the air, took a course directly across the street. Bowen was exactly in the path of the rocket, and it struck him full in the chest, the rocket's stick penetrating his right lung, and splinters were driven into his throat. Bowen toppled and fell, and died.

Gymnasium Classes to Be Started This Week—Ladies' Committee to Meet Tuesday Afternoon.

The Ladies' Committee will meet in the association parlors Tuesday afternoon, November 1st, at 3 o'clock. All ladies interested in this work are requested to be present.

The gymnasium classes will be started this week. All who desire to enter these classes are requested to see the General Secretary and register immediately.

The association is under obligations to Mr. H. Taylor for the "Courier-Journal," to Mr. Wm. H. Cox for "The Literary Digest" and "The Illustrated London News," and to the Christian Endeavor Society of the First Presbyterian Church for "The Ram's Horn."

The reading room will soon be provided with additional literature of the very best character, embracing leading magazines and journals.

The young men of Maysville are urged to renew their membership. The privileges afforded by the reading room, game room, bath room and gymnasium are certainly worth many times the amount of the membership fee, which is only \$5 a year.

Hon. John W. Yerkes' Speech.

Hon. John W. Yerkes, of Danville, spoke at the court house Saturday night in the interest of the Republican party. It was the first speech of the campaign in this county. He was greeted by a fair audience of Republicans and Democrats, and there was quite a number of the fair sex present. Col. A. M. J. Cochran introduced the speaker, who devoted most of his time to a discussion of the Goshal election law. Mr. Yerkes is recognized as one of Kentucky's best and ablest Republicans.

Took His Son's Money and Skipped.

Adam Shroufe, of near Berlin, went to Augusta Saturday, drew from bank about \$100 belonging to his boys, but deposited in his name, wrote a letter to his family telling them that he was gone for good, but that the farm was theirs to make what they could out of it. He left an invalid wife. We have known Mr. S. for years and are at a loss to account for his actions, as we always found him a perfect, upright, honorable gentleman.

Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world. But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten, comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Except in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures safely, permanently.

Think He Was Poisoned.

Mr. OLIVER, Ky., October 29.—Jesse Colvin left here last week to go to Cynthia on business. He was to return Monday, but did not. His family became alarmed and instituted search with the result that yesterday the remains were found in a straw stack not far from a roadside some distance from his house. The stomach was removed for analysis, as it is suspected he was poisoned by some one who robbed him while unconscious.

LET VOTERS READ.

Questions of Great Importance to Be Settled Tuesday, November 8th.

Every Democrat Should Rally to the Support of Their Party's Nominees.

[Circular From Democratic Congressional Committee.]

Clothed with the right of elective franchise, on the eighth day of November next you will be called upon to exercise the highest duty of citizenship. Upon your action depends the control of the next House of Representatives of Congress. Every vote for a Republican candidate will be an endorsement of the Republican policy and an approval of the record made by the last Congress.

The Republican party has come to be the agent of the trusts, the great corporations, and the great banks. The truth of this statement is borne out by the public records of the past thirty years. Since the close of the Civil war every demand of the money power made of Congress while under Republican rule has been substantially complied with and every demand of the people substantially denied.

At the dictation of the money power the legal tender money put out during the war was destroyed, whereby prices were cut in twain. By legislation hostile to silver and treasury notes the volume of the currency has been kept so limited that prices have again been cut in twain since 1873, so that, during a period of thirty years, by means of financial legislation the producers and laborers of the country have been impoverished while the wealth of the rich has been quadrupled. By means of this legislation more than fifteen billions of wealth created by the thirty millions who live upon the farms has been transferred from those who produced it to the coffers of the rich.

The Republican party opposed an income tax even in time of war.

They passed the Dingley bill, intentionally framed so as to favor the great trusts which have contributed millions of dollars to the Republican campaign fund.

In the last Congress they surrendered to the Pacific railway steal; they voted against taxing corporations; they even voted against taxing the trusts. They authorized the issuance of \$500,000,000 of bonds when there was not the slightest necessity for any issue. They have abandoned international bimetalism and are now thoroughly committed to the single gold standard.

Those appointed to office in the army were the sons of the rich or dictated by those with a political pull. The worthy and competent were turned down for the ignorant and the incompetent, resulting in more sickness, suffering and death in our army than came from Spanish bullets and Spanish fevers.

For the great wrongs done our volunteers no one is punished. Only whitewashing committees, holding star chamber proceedings, are organized to cover up the outrages and excuse if not justify crime.

Vast sums of money have been wasted in extravagant contracts given out to special favorites or to corporations which make political subscriptions; and where speculations have been discovered the records containing the proof have mysteriously disappeared after reaching the War Department.

Only a Democratic Congress can be expected to investigate these wrongs and bring the guilty to the bar of public opinion and to punishment.

The shadow of the Gage bill hangs over the country. If the next House be Republican that bill will become a law. All existing federal currency save gold will be destroyed. The entire circulation of the country will be in the hands of the banks to whom the sovereign prerogative of issuing money is to be surrendered. A bureaucracy is to be established whose officers are to hold their places for twelve years so that three Presidential terms must pass before they can be dislodged. Bonds are to be issued without limit to buy the gold with which to redeem the bank notes. The Government is to get out of the government business and go into the guaranty business for the benefit of the banks. A monster banking trust is to be organized to swallow up all the banks outside of the great cities, for these agents of the Rothschilds are to have the power to establish branch banks wherever they will. If this monstrous conspiracy is to be destroyed it can not be done by returning a Republican majority to the next House.

It is given out from the Treasury Department that the war revenue bill has come to stay. So it will be if the Republicans continue to control Congress.

If the war revenue bill is to be repealed, if taxation is to be made more equal, if the power of the trusts and the monopolies is to be checked, if the mon-

ster bank conspiracy is to be throttled, candidates who oppose the Republican party must be elected.

The very foundation of the republic is being sapped. The money oligarchy is in the saddle; they must be unhorsed or we are lost.

We therefore call on every honest voter, regardless of past political affiliations to go to the polls on election day to save the republic. Duty calls to us. Patriotism appeals to us. Let us once more have a government so administered as to bring equal rights to all, and to give exclusive privileges to none. Let the decree go forth henceforth ours is to be a government not by, of, or for the syndicates and trusts, but of, by and for the people.

Of the twelve million voters in this country, more than eleven millions are vitally concerned in the accomplishment of this result.

Let their voices be heard in thunder tones on the 8th day of November next.

TESLA'S LATEST.

Proposes to Transmit Electric Energy Without the Aid of Wires—His Startling Claims.

New York, October 26.—Nikola Tesla, the electrician, describes in to-day's issue of the Electrical Review a possibility in electric power transmission. His inventions for transmitting electricity at high pressure over long distances have been successfully applied at many natural sources of power. Probably the most important of these plants in the United States is at Niagara Falls, costing over \$6,000,000 to install, which supplies electricity to many large factories and supplies electric power for running the trolley lines of the city of Buffalo, twenty-six miles distant.

The announcement is now made that by employing apparatus which he has invented, capable of generating electrical pressures vastly in excess of any heretofore used, located at natural sources of power, the current can be conducted to a terminal maintained at an elevation where the rarefied atmosphere is capable of conducting freely the particular current produced; then, at a distant point where the energy is to be used commercially, to maintain a second terminal at about the same elevation to attract and receive the current and to convey it to the earth through special means for transforming and utilizing it.

With the article an illustration is presented showing streams of electricity issuing from a single terminal, giving an estimated electrical pressure of 2,500,000 volts. The Electrical Review comments on Mr. Tesla's novel and startling ideas as follows:

"Tesla now proposes to transmit, without the use of any wires, through the natural media—the earth and air—great amounts of power to distances of thousands of miles. This will appear a dream—a tale from the Arabian Nights—but the extraordinary discoveries Tesla has made during a number of years of incessant labor, which are authoritatively described in our present issue, make it evident that his work in this field has passed a stage of laboratory experiment and is ready for a practical test on an industrial trial scale. The success of his efforts means that power from such sources as Niagara will become available in any part of the world, regardless of distance."

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

Nothing of particular importance is to be reported with reference to our leaf market for the past week. The offerings were very light, but seemed to be sufficient to supply the demand, at least the competition was not strong enough to produce any material advance in price, and it can only be said that the improved quotations which we gave last week were fully maintained. Color still has the call, but red tobacco also, in the quantities in which it is market, sells right well. In fact, we believe that holders as a general thing are realizing for their low and medium grades as much, and more, as they expected, and fall short only on the finer grades. In the latter there was evidently a better feeling. While no large sales were made there was some inquiry for them, privately, and a few lots were disposed of in that way. Several small shipments of new stock were on the break and brought about what could be expected, considering house-burn, condition, &c. Here are some of the prices: \$1.20, \$1.05, \$1.10 and \$1.15. Of course, the present figures and bidding afford no criterion for the probable range of prices for the new crop, because there is not enough in market to fully employ the buyers, and, as always the case, the first few hundred hogsheads of a crop excite more curiosity than real interest. One thing, though, seems to be a well established fact, and that is that the quality of the crop will be badly lacking in body as well as in color.

The personal estate of the late McClelland Cracraft was appraised at \$325.70.

THREE SHOCKS FELT.

Fall Buildings in Cleveland Quiver During an Earthquake.

Cleveland, Oct. 31.—Three distinct earthquake shocks were felt in this city, each being about 10 seconds in length. The quake was not severe enough to be noticed generally except in tall buildings and on seismographs. The trend of the quakes were in a northerly and southerly direction.

Desires to Be Quiet.

London, Oct. 31.—General Lord Kitchener has been overwhelmed with special invitations since his return to England; but he is disposed to take a rest. He has been asked by two English publishing firms to write a book and an American agent has been trying to get him consent to a lecturing tour in the United States. But the commander of the Anglo-Egyptian forces has declined all these propositions. The statement that General Kitchener served in the French army during the war of 1870-1871 was confirmed this week by an interview with his stepmother at Dinan.

Uncle Sam's Space at Paris.

Chicago, Oct. 31.—Director of Exhibits J. H. McGibbon received from General Commissioner F. W. Peck, at Paris, a telegram stating that he had been allotted 35,000 square feet of additional floor space for United States exhibitors. The floor space for American exhibitors at present amounts to 210,000 square feet.

Mysterious Suicide.

Detroit, Oct. 31.—J. H. Granfill killed himself at a hotel just as police officers were attempting to prevent the act. He had not quitted his room all day, and through the transom was seen to be pacing about flourishing a revolver. The officers burst in the door, but Granfill shot himself just as a detective grasped his arm.

Cheese Exporters Fail.

Montreal, Oct. 31.—A demand of assignment has been made upon J. C. Warrington, one of the largest cheese exporters in Canada, and who also operates largely in northern New York. It is understood that the demand will not be contested. The liabilities are unknown, but will be large.

Chrysanthemum Show.

Pittsburg, Oct. 31.—Fully 8,000 people attended the opening of the chrysanthemum show at the Phipps conservatory, Schenley park. The exhibition is said by experts to be the finest and largest ever seen in Pittsburg. Perfection and set out in the way that is most pleasing to the eye.

Great Fire in India.

Bombay, Oct. 31.—A great fire in Serinagar, one of the capitals of Cashmere, destroyed all the public buildings and many residences. One man was killed. The damage is estimated at ten lakhs (\$500,000).

French Will Back Down.

Paris, Oct. 31.—The French press is beginning to manifest a much more conciliatory spirit regarding Fashoda, apparently with a view to preparing the public mind for the recall of the Marchand expedition.

Special Election!

STATE OF KENTUCKY.
MASON COUNTY COURT.
April Term, August 9, 1898.

Whereas, It is the sense of the Fiscal Court of Mason County that sixty thousand dollars in 4 per cent. bonds should be issued by said county with which (the proceeds thereof) to purchase and make part of the free turnpike system of the said county the following named turnpike roads, that is so much of said roads as may be situated in Mason County, viz: Maysville and Lexington, Mayville and Mt. Sterling, Masou and Bracken, Helena, Dover and Admire, and Mayville and Helena roads. No part of said bonds to be issued, unless the Mayville and Lexington, Mayville and Mt. Sterling, and Masou and Bracken roads can be supplemented and purchased wholly from the proceeds of said bond issue, after deducting therefrom the several amounts agreed by this court to be paid for the three other above named roads, viz: The Helena, the Dover and Admire, and the Mayville and Helena; the whole amount to be paid for the aforesaid six roads not to exceed (\$60,000) sixty thousand dollars. Be it therefore ordered by this court that an election be held on the 8th day of November on the day of the next regular election to-wit:

NOVEMBER 8, 1898,

and that a poll be opened in each of the respective voting precincts in said county for the purpose aforesaid; the proposition to be submitted to the voters in the form of the question to be printed on the ballots to be used at said election, to-wit: "Are you in favor of issuing bonds for the purchase and maintenance of the turnpike roads of this county, free of toll to the traveling public?" And the Sheriff of Mason County is ordered and directed by this court to advertise said election and the object thereof for at least thirty days next before the day thereof in some newspaper having the largest circulation in the county, and also by printed handbills posted up at not less than four public places in each voting precinct in the county and at the court house door.

STATE OF KENTUCKY.
MASON COUNTY, } Set.
I, C. L. Wood, Clerk of the Mason County Court, do hereby certify that the foregoing is an exact copy of the order of the Mason Fiscal Court made as it appears of record in Order Book No. 2, page 74, Mason County Fiscal Court Records.
Given under my hand this August 10th, 1898.
C. L. WOOD, Clerk.
By A. F. WOOD, Deputy Clerk.

In compliance with the above order of the Fiscal Court of Mason County, Kentucky, I, S. P. Perrine, Sheriff of the said county, will, at the next regular election held therein, on

TUESDAY, NOVEMBER 8, 1898,

Sterling turnpike roads as may be wholly situated in Mason County. All legal voters in said county shall be privileged to vote at said election. The same officers that hold the regular election shall hold this election, which shall, in all respects, be held in accordance with the general election laws of this State.
